

At St Philip's School we strive to provide a curriculum that is practical, vocational and exciting. Our curriculum prepares our young people well for adulthood as they develop the skills and knowledge required to live happy, healthy and successful lives; making a positive contribution to wider society.

The school is divided into four key stages. Key Stage 2 (Primary years 5 and 6), Key Stage 3 (Years 7 – 9), Key Stage 4 (Years 10 – 11), Key Stage 5 (Post 16, years 12 - 14).

All students follow a programme of study based on the National Curriculum, but adapted to suit their individual needs and to help meet the outcomes of their Education, Health and Care Plan.

Students focus on achieving accreditation outcomes which will provide them access to courses in Further Education Colleges when they leave school. This includes preparing for GCSE and Functional Skills exams.

Students in our Post 16 provision follow the Skills for Life program with a focus on increasing their independence throughout their time at St Philip's, with lessons focusing on literacy, numeracy, personal care, travel training, personal safety, work experience, enterprise and independent living.

Further details for each subject area under each key stage can be found on the drop down menu.

Further Information:

We welcome the opportunity to discuss the school's curriculum further with parents/carers. Parents should contact the School Office (020 8397 2672) in the first instance if they require further information. The office will direct each enquiry to the appropriate Head of Key Stage.
